

DARK MOURNING

Dark Mourning delivers a hard hitting groove laying down the ground work for steaming guitars and melodic rage. Bringing the vibrancy of 80's metal with the attitude of the 90's hard rock into the new millennium with technicality to spare, Dark Mourning offer something for every heavy music fan.

From the ashes of 2 of central Canada's well-loved metal bands X-Engine-X and Devoid, these players have put on thousands of kilometres in their former bands, opening for acts such as Godsmack, Sebastian Bach, Nickleback and Quiet Riot and more.

With fresh hunger Dark Mourning have their sites set firmly on capturing an international audience. So, this monster awakens, taking to the road for summer festival dates and a European fall tour in support of their self titled debut.
